

REMARKS

Paragraph 1 of the Office Action

The disclosure is objected to because of the following:

- 5 The following recited phrases are unclear, awkwardly worded, and/or grammatically incorrect: Lines 4 and 5 of page 4 recites "Figure 3 is a schematic cross-sectional view taken along line 3-3 of Figure 1 of the present invention". Figure 1 would appear to fail to illustrate line 3-3.

- 10 The specification has been amended to recite that the cross-section is a cross-section of the hub, as defined within the specification.

Line 9 of page 5 recites "in use, the assembly 10 is used as a conventional stroller".

- 15 Applicant is unsure of how to reword the phrase in question as the common definition of a stroller is a wheeled carriage without mention of whether or not the front wheels are pivotal. For this reason, it is believed that applicant has been accurate in the description.

Paragraph 2 of the Office Action

- 20 Claims 3 and 4 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim, or amend the claim to place the claim in proper dependent form, or rewrite the claim in independent form.

- 25 Claim 3 has been cancelled and claim 4 amended. It is believed that claim 4 is now in condition for allowance and application respectfully requests withdrawal of the objection.

Paragraph 3 of the Office Action

Claims 1, 2 and 5 are allowed.

CONCLUSION

5

In light of the foregoing amendments and remarks, early consideration and allowance of this application are most courteously solicited.

Respectfully submitted,

10
